

Machine Learning & Deep Learning – A Practical Guide

Chapter 1: Machine Learning Overview

Machine Learning enables systems to learn from data without explicit programming.

It is widely used in recommendation systems and prediction engines.

Chapter 2: Supervised & Unsupervised Learning

Supervised learning uses labeled data, while unsupervised learning finds patterns in unlabeled data.

Chapter 3: Deep Learning

Deep learning uses neural networks with multiple layers.

It excels in image, speech, and text processing.
